Michael Schuler
President & CEO
Veterans Alliance Resourcing, Inc.
620 E Centre Park Blvd.
DeSoto, TX 75115

Mr. Schuler,

With a decade of accumulated assets at multiple campuses, we were concerned about the high disposal costs quoted by e-waste companies to scrap our old IT assets and properly wipe the drives. However, after talking with Veterans Alliance Resourcing "VAR" they offered a solution indicating there was still value in these aged assets that could offset our costs; so we awarded VAR the contract. After three days onsite to remove all the assets, VAR's subsequent repair and remarketing efforts paid off, as they raised enough revenues to wipe out all the disposal costs - including the unexpected discovery of 150+ CRT monitors and a dozen large CRT TVs unknown to us in the mix. Veterans Alliance Resourcing really performed beyond our expectations. Based on our experience, we highly recommend you consider VAR for IT Asset Management and Value Recovery Services for your school or ISD.

Respectfully,

Barry Coleman, Director of Technology

John Kaufman, Superintendent of Schools
